## Embedded Professional Certification

This is to certify that **Miss. Geeta Dasari** have undergone an Embedded Professional Training in "Embedded System Solution" sector of Epsilon Electronics, Ahmadabad during July 2013 to April 2014. During this period of training, the candidate has undergone training on embedded systems with our experts, and has also worked on the various simulation & Hardware part.

She has worked on professional Development tools like Kiel IDE, Proteus Simulator, Orcad PCB designing tool. She has enhanced PCB Designing skill using Capture CIS & Layout plus. During training session she has enhanced hardware skills on micro controller board 8051 controller & PIC Controller for interfacing modules.

To mention about her performance, I would like to mention that she has completed the training with above average performance and in given time frame. With respect to her project, I would place candidate's contribution, in more than expected category for this project. The following skills were identified in her training period,

**1. Determination**

**2. Dedication**

**3. Team Player**

**We wish him well for all future endeavors,**

**Hardik Patel**
